HEALTH DEPARTMENT WEB SITE OFFERS BEACH UPDATES

MOUNT CLEMENS, Mich. – If you're planning an outing to your favorite Macomb County beach and want to be sure it will be open when you get there, check out the beach closing page on the Health Department Web site.

Anyone can check the status of six public beaches monitored by the Health Department by visiting macombcountymi.gov/publichealth/sum_beach.asp. Even better, while visiting that page, you can subscribe to "e-mail updates" that will automatically inform you when a beach is closed or when it is removed from the closure list.

Water quality at the beaches is routinely tested twice weekly by the Health Department and beach operational status, if changed, will be updated every Tuesday and Thursday around noon.

The six beaches monitored by the Macomb County Health Department are Metropolitan Beach, Stoney Creek-Baypoint, Stoney Creek-Eastwood, New Baltimore Park, Blossom Heath Park Beach in St. Clair Shores, and Memorial Park in St. Clair Shores.
